

*Victoria Chinatown Care Centre*

April 27, 2022

Greetings Families -

Thank you to those who inquired about the health and wellbeing of our residents and staff following the Ministry of Health's declaration of a COVID Outbreak on April 19<sup>th</sup> 2022.

Since then, the team has tried to minimize disruptions in the care delivery and ensured that all needs were met. We are all very grateful to all staff members for their professionalism and compassion during this challenging time.

Residents who tested positive for COVID 19 all had mild symptoms and have either already fully recovered or on the mend toward full recovery. We are continuing to monitor everyone in our community and have been well supported by Island Health.

VCCC is tentatively to be cleared from outbreak on May 1<sup>st</sup>. We will continue to take each day at a time and will adjust accordingly. We are eager to welcome visitors back to the centre and will resume scheduled appointments following the resolution of the outbreak.

Many thanks,  
Rowena Ko  
Assistant Director of Care
